

Bluetooth & Divinity

In today's era of telecommunication, usage of Bluetooth is quite common. Being a student of Electronics & Telecommunication Engg, and blessed with the divine knowledge by Baba Ji, I feel there is a similarity between Bluetooth & Divinity...

Bluetooth is an open [wireless](#) protocol for exchanging data over short distances from fixed and mobile devices. As it is wireless it doesn't require any direct & physical contact & this technology can be used even if out of coverage area.

God has bestowed similar kind of Bluetooth to every human being. Our mind is Bluetooth & it becomes divine after realizing the divine. We are all connected to each other; distance doesn't matter through this Divinity (Bluetooth). Even if we are thousands of miles away from our beloved ones, yet we can know their emotions, feelings with the help of this divine connection. A mother feels her child's pain even if the child is not able to communicate the same through words. (Saints have referred this as COMMUNION..When one is able to communicate without any words..

This is possible only because of the attachment (connection) through this Divine Bluetooth, so that we can realize the sorrows and happiness of our dear ones without any sort of communication.

Everyone today talks about almost impossible unity in a diverse world.. There are different castes, creed, cultures, languages & different food habits. Unity in Diversity is possible only when diversity unites through ONE, which is this divine Bluetooth. When each one of us feels that they are at the same frequency & link joining us is the same - then only there will be UNITY.

When you are at the same frequency, you receive same vibes & the other person also receives same vibes, since the connection is through this divine Bluetooth.

Let us all pray to Baba Ji that may we always use this divine Bluetooth to connect to him via simran. May we never lose the frequency of love with the great bandwidth of tolerance, sewa, satsang all the way through working with the power of satguru.
