

Ghajini

The other day my daughter was narrating the story of the film Ghajini in which the hero suffers from short term memory loss. He keeps forgetting things every fifteen minutes: his name, address, profession and also the main motive of his life which is to seek revenge. He carries with him photographs and chits of paper which he refers to every fifteen minutes and remembers what he has to do. I related this story to myself and realized that, the hero could remember his identity and purpose for at least fifteen minutes, but I keep on forgetting my true identity, the purpose of my life and the Divine Knowledge bestowed upon me by HH every moment. My memory is so short that I forget the Omnipresent God every now and then. To redeem me from this situation, my doctor Satguru Babaji has provided me with some aids. They are satsang, sewa and simran.

In the company of saints, by listening to their pious words and seeing them live a righteous life, I remember the teachings of Babaji. In this state of realization when I utter the words 'Tuhi Nirankar, Main Teri Sharan Haan, Mainu Baksh Lo', I remember Nirankar-the formless, His greatness and my own true minuscule identity. Just like the hero of Ghajini remembers the motto of his life by looking at the photographs and reading the messages, I too remember the motive of my life by looking at Babaji and reading and listening to His vichar. Please bless me that I should always use these tools sewa, simran and satsang to remember Nirankar, my goal, my duties & responsibilities.
