

With the blessings of His Holiness Satguru Baba Hardev Singh ji Maharaj, New York Branch for the very first time took part in the Hicksville annual Diwali Festival.

Volunteers of the Mission had acquired a booth to help promote the message of the Mission in form of Publication and Blood Drive Pre-Registration stands.

Youth of the Mission had prepared and presented the Oneness Dance at suitable frequency. The Oneness Dance indeed served as the main attraction of the day and drew quite some attention from the crowd.

With the benevolence of His Holiness, some eager individuals approached the booth and expressed their curiosity in terms of Mission's ideologies and its take on current state of affairs. Sentiments ran high when three different devotee families stumbled upon the booth and were in complete disbelief as they had been estranged from the Nirankari family for over few years.

Now that they came to realize that their very own city of New York too had a full fledged branch, their eyes welled up with tears of sheer joy. This was an indeed awe inspiring and tear jerking moment as long separated devotees of the Nirankari Family were now reunited with local devotees of the branch.

Impressed and quite captivated by the aura and the serenity that emitted from the devotees, organizers of the festival, invited the Oneness Dance team to present a grand finale on the prime stage which was further enhanced as a great number of local devotees joined in as well. Concluding the event, volunteers of the Mission expressed their immense joy towards the almighty for such a platform where thoughts and ideas of higher human values can be reciprocated.

Holding hands everyone humbly prayed to the almighty for the courage, strength and desire continue to become an instrument in the fulfillment of the divine will.
