

DISTINGUISHED DELEGATES IN SATSANG IN NEW YORK **(BRIEF REPORT OCTOBER 22nd ,2017)**

With the grace of Her Holiness Satguru Mata Savinder Hardev ji Maharaj, New York branch had the humble privilege to host distinguished UN delegates including honorable Princess Maria at the regularly held Sunday congregation on October 22nd. 2017. **The congregation was presided over by Rev. Rajan Sachdeva ji, visiting from Detroit, Michigan.**

During the course of the congregation, devotees expressed their views in the form of speeches, spiritual hymns, poems and personal accounts. His Holiness Dede Baba Edmond, a spiritual representative on behalf of the country Albania accompanied by an interpreter, shared some thought provoking insights in the native language. The gist of the message was that we all brothers and sisters and in order to foster the feeling of humanity we must exercise tolerance and acceptance to diversity we witness all around.

Princess Maria addressing the congregation stated that the selfless love, the compassion and humility that is being exercised by every citizen of the Sant Nirankari Mission, is simply unprecedented. She added that the act of honoring **Satguru Baba Hardev Singh ji Maharaj with the Supreme Spiritual Icon of the year award** is a mere humble attempt to create awareness towards the greater good as it is not only impossible yet altogether inconceivable to honor, acknowledge and grant merit to an entity that is above and beyond such feeble efforts as Baba Hardev Singh ji Maharaj.

Princess Maria also stressed that the sole reason SNM is able to spread the message of humanity in spirit and in letter, because it is founded, nourished and erected upon truth that is Self-Realization. With tears of gratitude welling up in her eyes, Princess Maria offered a grand salute to the iconic legacy Baba Hardev Singh ji led and paved path for generations of humanity to tread upon. In the final discourse, rev. Rajan Sachdeva ji blessed that the era of that of

Shehenshah Baba Avtar Singh ji has not irreversibly vanished into oblivion rather shrouded by dense fog of ignorance

Such prominent propaganda that feeds on ego and erodes humanity, is cheating us of that golden era. It is only a matter of getting in touch with our real self that shall lift the cloud of opaqueness and give way to awareness that there are no foes but all are our brothers and sisters.

Once we realize that all are own, pride and arrogance subside and all contentions dissolve at once. Following the conclusion of the congregation, all delegates gleefully accepted the invitation for the communal meal. The resulting scenario was nothing short of a mosaic of an International family celebrating humanity.

New York branch expresses immense gratitude towards Satguru Mata ji for presenting this wonderful opportunity to help spread the message of the Mission and humbly seeks blessings to continue to be an instrument in fulfilling the divine vision of one global family.
