

NEW YORK CLEANLINESS DRIVE 2020

With the grace of Satguru Mata Sudiksha ji Maharaj, on the occasion of Guru Puja Diwas 2020, New York Branch conducted a Cleanliness Drive. In the Nirankari world, Guru Puja Diwas is synonymous with the birth anniversary of Baba Hardev Singh ji Maharaj. Inspired by the epitomizing quote "Service to Humanity is Service to God, followers of the Mission commemorate this auspicious day by carrying out host of social activities as tree plantations, food drives, toy drives, coat drives, soup kitchen and as such.

This year as per the directives of the HQ, all branches were to organize a Cleanliness Drive. New York Branch too took the initiative towards the cause. Since New York branch is blessed with its own bhawan this year, so it was decided to start the cleanliness drives right from our own neighborhood. The adjacent peripheral areas and streets of the newly acquired satsang bhavan were covered during this initiative. Devotees of all age groups came forth with exceeding enthusiasm to participate. Few neighboring families approached Mission's volunteers to thank and appreciate this initiative.

Upon the conclusion of the drive, landscape surrounding the facility radiated vibrantly. As another quote blessed by Baba Hardev Singh ji Maharaj, "Pollution is Injurious, Whether Internal or External," devotees made a humble attempt to implement the teachings of the Mission.

New York Branch humbly expresses immense gratitude towards Satguru Mata Sudiksha ji Maharaj for the opportunity to draw blessings and further prays that may such opportunities keep pouring our way and that we may continue to become source of peace and happiness for the society at large.
