

Blood Drive in North Carolina

On March 10th 2017, the Sant Nirankari Mission volunteered at the 100th anniversary Red Cross blood drives in North Carolina. Red Cross hosted two blood drives for people to help donate blood. It's estimated that only 5% of the USA's population donates blood, which Red Cross says isn't enough. CBS North Carolina and Red Cross in association with the Sant Nirankari Mission thought of taking the initiative to help mankind.

Members of the Raleigh SNM congregation were able to encourage and educate shoppers at two local malls. They

were also able to donate blood themselves and help the cause.

The goals for each mall were surpassed in the first hour itself and the blood

drives were a great success for both the Sant Nirankari Mission and Red Cross. Both organizations are thankful for their priceless donations which helped to save lives, and hope to see more in the future.
