

Cleanliness Drive 2019

On October 12th, members of Sant Nirankari Mission, Tracy, California, USA branch held a cleanliness drive. On this occasion members of the mission get to do sewa at a local Animal Shelter.

Members of the mission got to the shelter as early as 8:30 in the morning and started moving weeds from the front yard of the shelter. The removal of the weeds gave way to tree plantation and eventual spreading of wood bark to as ground covering.

The branch was given an opportunity to work on an approximate 8,000 square feet of area. 45 members from as young as four months to as old as 81 years came together to plant more than 150 plants and trees of different variety. In total 200 sewa hours were used for the event.

Project ran under the supervision of head of Tracy Park and recreation department, Todd Rocha. Mission received accolades for providing volunteers to do selfless sewa to the local community. We got an opportunity to share mission's philosophy on doing Dhan Nirankar ji on each other's feet.
