## Be the Change that you Wish to see in the World (Mahatma Gandhi)

When I think of a lighthouse, I think of a big structure that guides ships. It has a beacon light which warns the ships in darkness about the danger that might be coming their way. In the same way, when I think of Mata Ji, our Satguru, I see her as my lighthouse. She helps me choose the right path and helps me do the right things, by setting the right example. Her saints help me by following the teachings of mission. When I see saints doing good to others, I want to do good as well.

Mata Ji wants us to see the light and be the light. She wants us to shine, serve, guide, and protect. I will become a lighthouse by following the teachings of Mata Ji. Her teachings are to work together, love each other, bring peace, & respect each human being. Above all, she wants us to become a lighthouse. To me that means that I need to set an example of the change that Mata Ji wants to see in all. When I can show the light and when I can change myself by following Mata Ji's direction, others will try to change themselves as well.

In Conclusion, Mata Ji wants everybody to be a lighthouse. She wants us to shine, serve, guide, and protect. To make Mata Ji's wish come true, we need to first make sure we shine and then help others shine. Mata Ji is very nice and she is a very good role model for all of us.
