Tree Plantation 2021

On the auspicious occasion of Guru Puja Diwas, Sant Nirankari Mission Seattle branch was able to participate in a Tree Plantation program. Due to the COVID-19 pandemic, the saints were unable to conduct a large-scale tree plantation drive. As per the instructions of Her Holiness Satguru Mata Sudiksha Ji, the saints potted small bushes in their residences and got indoor plants. The saints pledged to care for and nurture these plants for a couple of years.

The tree plantation program provided the saints with the opportunity to reflect upon the importance of trees in both the material and spiritual world. In the material world, planting trees is beneficial for the environment as trees play a big role in reducing pollution and producing oxygen. Looking at it from the spiritual lens, the tree is an example of stability and strength. The tree stands strong despite the wind, rain, snow, or any other storm that it faces. The tree's stability comes from its vast connection of underground roots. HH Satguru mataji also mentioned about Sthirta in pictorial way in the form of LOGO during Annual Sant Samagam 2020. Similarly, when saints connect to the Formless Nirankar, they are able to achieve stability while living in the unstable and everchanging material world.

May Satguru Mata Ji bless us all with many more selfless service opportunities to serve the community in the future.

With Regards,

SNM Seattle
