

SNM Seattle
Cleanliness Drive & Tree Plantation

On 24th July 2021, Sant Nirankari Mission Seattle branch was able to conduct a Cleanliness Drive & Tree Plantation with an organization called Farmer Frog. Farmer Frog is a non-profit organization which started as a food garden at a school in South Everett, Washington in 2009-2010 by Zsafia Pasztor and her husband Zsolt. They planted a garden at Olivia Park Elementary School to help feed the homeless students and families that were affected by the economic crash of 2008. Currently, Farmer Frog helps with COVID-19 relief by providing fresh produce to those that are staying in isolation because of the pandemic. They also drive and ship the produce grown on the farm to other parts of the United States and other countries in need.

With the grace of Her Holiness, Satguru Mata Sudiksha Ji, the SNM Seattle branch was able to help the Farmer Frog organization by weeding the garden bed to help keep the other plants alive. The weeds were gathered and used to feed the farm animals and birds. In addition, the saints helped harvest mint leaves and stored them in various crates. The youth saints participated in this event by weeding the gravel pathways to keep the walkways clear of plants.

May Satguru Mata Ji bless us all with many more selfless service opportunities to serve the community in the future.
